#### ANOTHER OF 'EM BUYS A HOUSE. Don't You Mistake Bridge Newspaper Vendors for Labor-They're Capital.

The blue light of morning came to Park row yesterday with a heavy surcharge of green in its composition. Word had got around that Belle Karp had bought a house. Now, the object of every man, woman and child who sells newspapers around the Bridge entrance is to buy a house some day. Tradition says that Mary Corcoran, the mother of the Corcoran clan, did it ten years ago, and that the house she now lives in down in Catharine street was paid for by the hundreds of thousands of coppers that she and her progency had garnered in the morning and evening hours from the crowds that won't work in Brooklyn or sleep in Manhattan.

But Mrs. Karp is the first of the Jewish invaders of the Bridge plaza to reach the goal. With others of her race, she has been struggling toward it for almost a generation. Everybody knows the Karps, generation. Everybody knows the Karps, by countenance, if not by name. Nobody knows, except Mrs. Karp, exactly how many there are. But many knew Sophie, who has since become Mrs. Edelstein and a prominent in Brownsville society. Then there were few, indeed, who knew not Aby, who has been his mother's chief assistant salesman and scrapper with competitors since his knickerbooker days. And the family marks have been written on many enother small, eager face trafficking through enother small, eager face trafficking through the Bridge crowds.

Mrs. Karp came to her place long before

daylight yesterday morning with a visible importance which at once aroused the curiosity of her competitors and patrons. She dealt out the newspapers from her soap box as though she were conferring royal grants to faithful subjects.

Instantly all the newspaper vending np and down Park Row and out in City Hall Park came to a stop. There was a mob about Mrs. Karp and Aby. In disjointed about Mrs. Karp and Aby. In disjointed often repeated sentences, they told of the house. It was brick on the bottom and frame on top. Mrs. Elelstein, who retired from news selling into matrimony, is to live in it, and the Karps are to move over from Madison street. There will then be the thard flow to let. "Awful, cheen." Mrs. Kard Madison street. There will then be the thard floor to let, "Awful cheap," Mrs. Karp repeated frequently and hopefully. The house cost \$5,000, but whether this was the whole payment or part payment on a mortgage, no member of the family seemed to know or care. She had bought a house. It was enough. It was enough.

HIGGINS AND ODELL CONFER.

DIFFER ABOUT MANAGEMENT OF THE STATE CHARITIES.

Many Opinions About the Senatorship -Odell Says There May Be Some Flank Movements and Possibly Some Direct Assaults-He Won't Elucidate.

Governor-elect Frank Wayland Higgins came to town yesterday and spent most of the afternoon at the Fifth Avenue Hotel talking with Governor-Chairman Odell. Neither Mr. Higgins nor Mr. Odell cared what they talked about, but Mr. Higgins confirmed the announcements made yesterday morning to the effect that he would recommend in his message to the Legislature that the charity institutions of the State be put back on the plane they occupied before Gov. Odell's legislation, which discontinued the work of philanthropic men and women throughout the State, put in their places paid employees, and opened the charities institutions of the State to the charge that they were but an annex to Gov. Odell's political machine. Mr. Higgins also confirmed the statement that he would recommend the repeal of the savings banks tax. This is in accordance with a plank in the Republican State platform adopted at Saratoga.

Just whether Gov. Higgins's utterances concerning charities legislation will be regarded seriously by the Republican legislators at Albany was one of the questions discussed by Republicans down this way last night. Some Republican Senators were in town who spoke and voted against Governor-Chairman Odell's charities legislation when it came up in the upper house at Albany, and several of them said that they were rather inclined to think differently of the situation just at the moment; whether they would go far enough to accept the recommendations of Gov. Higgins to go back to the old method of doing things they did not care to say just at this time. Several of the Senators who are classed as Odell men said that they would oppose any legislation which would do away with the Odell system. All said, however, that they would follow the recommendation to repeal the savings banks tax.

bubbling gossip concerning the United States Senatorship subsided somewhat. You could hear any opinion you cared to, and more, for that matter. Some said that at the proper time ex-Gov. Black would declare himself to be a candidate to succeed Senator Depew, but that Mr. Black would not take this step until he was perfectly sure that he could be the victor. Others said that Mr. Black had not decided and would not decide to be a candidate to succeed Senator Depew. Still others said that after the meeting between Governor-Chairman Odell, Mr. Payn, Senator Malby and Mr. Black on Tuesday afternoon it was generally understood that Mr. Black and his friends were to go to work in an effort to rally to his support all of the Senators and Assemblymen possible, and that this work will go on possible, and that this work will go on until the early part of January, when the joint caucus of the Republican legislators is to be held at Albany to name Senator Depew's successor. Still others said that Mr. Black already had enough Senators and Assemblymen pledged to him to win the fight. Very few, however, believed that the test the test that the second that the fight. Very few, however, believed that for the reason that it is generally cepted as true that Senator Depew already sixty-six Senators and Asse men pledge! to him, and as on joint ballot in the caucus there will be 140 Republicans, it will readily be seen that seventy-one are a majority, and that Mr. Depew lacks only five of the necessary majority to win. A new feature came out about the Sena torship when it became known that William C. Warren, one of the Republican State committeemen in Frie county, had sent letters to the Republican Senators and Assemblymen of the county asking them

for United States Senator "because Gov. Odell may decide to be a candidate." More than usual interest was taken in the statement in The Statement proming that a struggle for the Republican leadership of the Senate between Senator John Raines of Ontario and Senator George R. Malby of St. Lawrence might break out within a short time. It was reiterated for Senator Malby that he is not a candidate for Senator Raines's place at the moment and yet it is known that Senator Malby and Senator Raines have had a long talk on this interesting subject.

Senator Malby is chairman of the Senate Committee on Finance, the most powerful committee of the Senate, and he enjoys the distinction and power attaching to chairmanship, which he could not have did he become leader of the Senate, for the reason that under the recent custom the ander of the Senate is not chairman of the Finance Committee or of any of the important committees of the Senate; so f Senator Malby became leader of the enate the chairmanship of the Finance Committee would probably go to Senator daines. Therefore, in the estimation of Raines. senator Malby's friends he would be relinquishing a place of great power and dis-tinction for a place which carries with it nothing but onerous duties and strife; and yet Senator Malby's friends went on to say that there was a good deal of glory in being leader of the majority in the upper

"I have been told that Mr. Higgins is in favor of the reelection of Mr. Depew, but I have not asked Mr. Higgins nor do I know from him if the reports that he favors Mr. Depew's comination are true. All I care to say at this stage is that when the Legislature is ready to name a Senator the Republicans will have only one candidate. Who that candidate will be no one can say yet. Itam in hopes, however, that some conclusion will be reached shortly which will make it certain that everything will be harmonious. I am not in the prophesying business, but I suppose that before a definite concluions is reached there may be some flank movements There is nothing more definite in the reached there may be some flank movement

#### AMERICAN REQUEST TO PARIS. National Institute Wants Free Site for School of Fine Arts.

Special Cable Despatch to THE SUN. Paris, Nov. 23.—A proposed convention between the American National Institute and the city of Paris has been submitted to a committee of the Municipal Council. The object is the acquisition of a free site on which to erect a school of fine arts, which will grant annually a prize of Paris similar to the prize of Rome. The institute was started by Matilda Smedley. Secretary of State Hay and Senator Frye are patrons of the institute, which has large financial support.

The Temps says the reason for asking for a free site is because the Constitution forbids American societies acquiring lands abroad. The committee will recommend the grant, although it regrets that the United States subjects works of art to excessive duties. It thinks Paris should take wider views and have nobler ideals for the furtherance of art, and should not stoop to petty reprisals. The plans for the institute are subject to the approval of the city architects.

The convention will be annulled unless the United States grants \$250,000 for the institute.

## POST MORTEM BY BRYAN. Tells How the Democrats Dodged on the

Income Tax at St. Louis Convention. LINCOLN, Neb., Nov. 28.-Mr. Bryan in the Commoner gives this inside story of the late convention:

"At St. Louis every member of the resolution committee expressed himself in favor of the income tax, but it was omitted from the platform because those who controlled the convention did not want to offend the moneyed element. It was pointed out in the committee by those who favored the tax that, even upon the low plane of ex-pediency, the party could not afford to ignore the injustice that our present tax

systems bring to the masses.

"The late campaign lacked life and enthusiasm and these were lacking because the voters did not feel there was as much difference as there ought to be between the Republican and Democratic parties. If the Democratic party will convince the masses that it is going to stand for their interests, guard their rights and promote their welfare, it can become a powerful and effective influence in politics.

## AUTO RACE UNDER BOND.

West Orange Insists on \$5,000 Security Before Permitting Hill Climbing Contest. ORANGE, N. J., Nov. 23.-For a while today it looked as if the New Jersey Automobile Club might strike a tough snag in at 124 East Eighty-sixth street. He was carrying out its plan to hold a hill climbing automobile contest on Fagle Rock avenue, West Orange, to-morrow. Chief of Police Bamford was instructed to prevent the contest unless the club discharged certain little obligations to the town by 5 o'clock this afternoon.

The club, according to the town officials had not lived up to its agreement to pay for some repairs to Eagle Rock avenue and for the policing of the avenue. The town made the repairs to the road and presented a hill for \$247 for that and one of \$51 for providing policemen. Dr. William Quivey of East Orange and two other members of the automobile club attended the meeting of the West Orange Town Council last night, but they did not pay the bill.

It was thought, however, that the bil would be paid but the councilmen got together after the meeting had adjourned and held an executive session at which the matter was thoroughly discussed. It was resolved that the club must deposit a satisfactory indemnity bond of \$5,000 to safeguard the town against any accident that might occur in the race, and further-more to insist that the club pay what it agreed to the town before 5 o'clock. Fail-ing this Chief Bamford was ordered to stop

the race.
Town Attorney Rollinson got into com munication with Dr. Quivey and was referred to James B. Dill, the corporation lawyer, in the matter of the indemnity bond. Mr. Dill said that he had absolutely rothing to do with the matter and had only heard of it indirectly.

The tug's skipper at last made an effort to pass under the steamer's stern. No whistles were sounded by either navigator. The Italians crowding the rails apparently thought it customary for vessels under way in harbor to shave each other closely. Not one of the watchers stirred until the broad bow of the heavy float, helped onward by a strong ebb tide, crashed into the starboard quarter of the steamship. more than \$25 is a felony, and the penalty Several other union moulders arrested on the same charge had their cases set for of Strike Breaker Weakley recently was arraigned to-day, pleaded not guilty, and teamship.

The shock threw some of the Italians off their feet. Perhaps their familiarity with subway explosions had hardened their nerves; anyhow, they exhibited less excitement than might have been expected even from folks of less volatile nationality. The tug cast off from the float and ran alongside the torn quarter of the liner. The tug's skipper inspected a gap about 24 feet long, 3 feet deep and at least 3 feet above the water line. He swapped some views with the pilot of the Nord America and then hitched on to the float again and

a thief, who said he was Charles Liebman, The crash of the collision attracted a flock of tugs about the slip. She accepted the services of some to help her dook, but proceeded to her pier under her own steam. Where the bluff bow of the float struck Where the bluft bow of the float struck were sleeping quarters for immigrants. None was there when the collision occurred. The little excitement that followed the shock did not last half a minute. Capt. Rocco Raffo of the Nord America said that nobody had even been bruised, and he thought that the long rent could be filled with new plates by Monday, when the ship will start for sea again.

As the immigrants came tumbling down he closed the door he said: "Well, good day, Mr. Jacobs; I am glad to have seen

with new plates by Monday, when the ship will start for sea again.

As the immigrants came tumbling down the gangplank with shovels at shoulder arms and dragging bundles and bags there was not a solemn face in the procession. They were told that they would be boarded at the expense of the line until the Nord America was ready to sail again, and if any of them wanted meanwhile to go by a ship of some other line, he would be provided with passage. Nearly all decided to stick by the ship that had been bumped. Some even preferred to stay aboard her while the repairs are being made.

Pilot Marks was inclined not to blame anybody for the accident. It was simply the natural result of a mix-up of craft. rooms and found that everything had been turned upside down.
Without stopping to put the turkey down, she ran down the stairs after the thief and caught him at the door. She said: "Young man, I think that you are a thief, because I just saw you come out of my rooms," and with that she struck Liebman across the back of the neck with the turkey. He turned on her, but she was more than a match for him and he took to his heels with Mrs. Leobland a crowd in his wake.
